- ✿ Fertilizer Canada has resources for further training in 4R Nutrient Stewardship
- ✿ The following online courses are available:
 - ✿ [4R Essentials](#) – An introduction to 4R Nutrient Stewardship
 - ✿ [4R Nutrient Stewardship Manitoba](#) – Further training specific to Manitoba agriculture
 - ✿ [4R Nutrient Stewardship Training](#) – A detailed course in three sections on the fundamentals and practices, 5.5 CEUs available, \$50 exam fee
 - ✿ [4R Nutrient Stewardship: Reducing Greenhouse Gas](#) – short course in how 4Rs can reducing greenhouse gas emissions

Fertilizer Canada eLearning courses are a convenient, simple, and innovative way to learn about topics in the fertilizer industry. These courses will explore sustainable methods of improving the industry's environmental impact, the safe and secure handling and storage of fertilizer products, and transportation safety and requirements. Fertilizer Canada makes courses available online, so anyone in the fertilizer industry, anywhere, can access the information needed to succeed.

Getting started with Fertilizer Canada's eLearning platform is simple. The only requirement is a computer with internet access. Registration on the site only takes a minute and users will have immediate access to the training module. Students learn at their own pace and on their own schedule.

Fertilizer Canada's eLearning was developed to provide continuing education to certified professionals, growers and others. Their goal is to provide formal training as to be seen as the source for information on fertilizer safety and nutrient management.

To start with eLearning, please register [HERE](#) – it only takes a second. If you are a returning member, please use your username and password to login [HERE](#).
